## DASHBOARD

RESET DATA

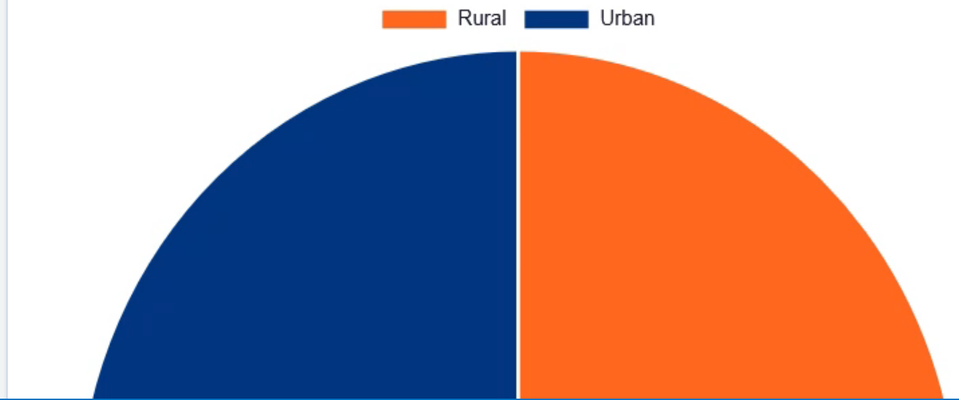

| TOTAL CANDIDATES | TOTAL INTERNSHIPS | AVAILABLE SEATS | SUCCESSFUL ALLOCATIONS | AVG MATCH SCORE | ALLOCATION RATE |
|---|---|---|---|---|---|
| 3353 | 61 | 729 | 0 | 0% | 0% |

| RURAL REPRESENTATION | PENDING CANDIDATES |
|---|---|
| 38.8% | 0 |

### SECTOR DISTRIBUTION

### RURAL VS URBAN

The Code-ssey

# TECHNICAL APPROACH

SMART INDIA HACKATHON 2026

## Algorithmic Approach

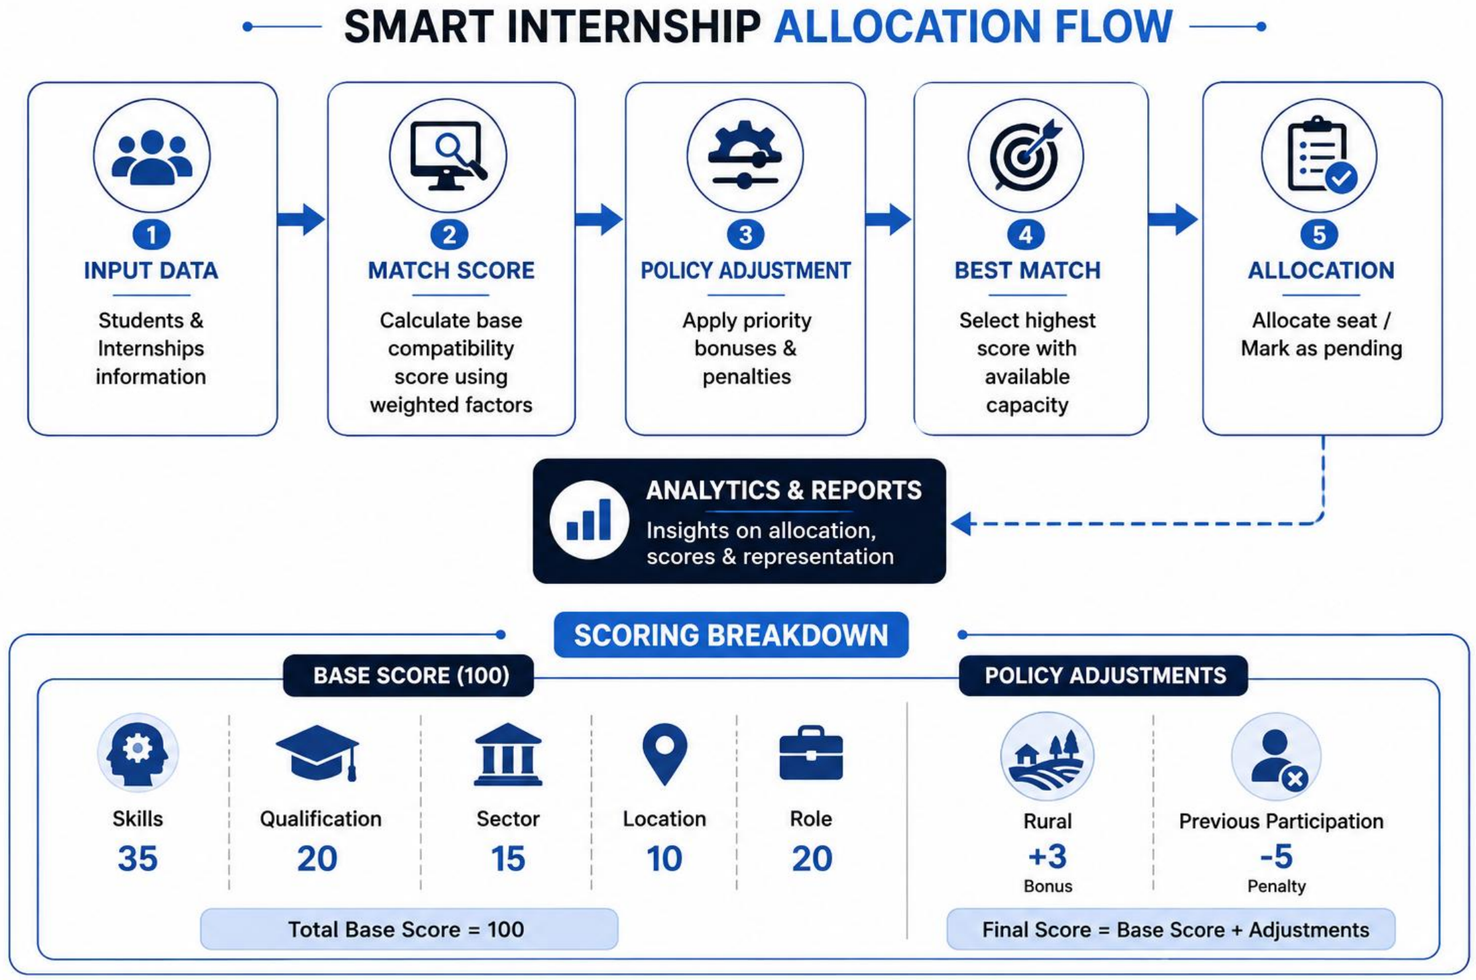

***Rule-based weighted match system using Greedy allocation strategy***

## Tech Stack

HTML CSS

Flask

## Scoring

The Code-ssey

# FEASIBILITY AND VIABILITY

SMART INDIA HACKATHON 2026

## 1. FEASIBILITY

### Technical Feasibility:

Built using Flask on the backend and plain JavaScript on frontend.

### Operational Feasibility:

Automated document transfer and real-time updates for stakeholders.

### Financial Feasibility:

Low development cost and no high-end hardware or GPU requirements.

## 2. ENHANCEMENTS & ADDITIONS

### Authentication & Verification:

Secure authentication and verify applicant data using DigiLocker and verified sources.

### Real Database Integration:

Use of robust relational database (e.g., PostgreSQL) for secure storage.

### Government Mandated Categories:

Implement all reservations and categories as per government norms.

## 3. IMPACT & RELIABILITY

### Data Security & Privacy:

End-to-end encryption and role-based access ensure data protection.

### Rural & Regional Accessibility:

Lightweight, mobile-responsive system accessible on low-bandwidth networks.

### Scalability & Reliability:

Modular design handles high traffic with minimal downtime.

The Code-ssey

# IMPACT AND BENEFITS

SMART INDIA HACKATHON 2026

### IMPACT ON STUDENTS

- Faster & fairer internship allocation.

### IMPACT ON COMPANIES

- Quality candidates with less effort.

### IMPACT ON GOVERNMENT

- Data-driven and efficient program management.

### IMPACT ON PM INTERNSHIP SCHEME

- More inclusive, transparent & scalable implementation.

## KEY BENEFITS

### SCALABLE

Handles large-scale allocation efficiently.

### REAL-TIME INSIGHTS

Helps authorities track allocation progress.

### DATA-DRIVEN PLANNING

Supports better decisions for future programs.

The Code-ssey
